Email Address: christglowe@gmail.com

Phone Number: 713-517-0617

Technical Skills:

Javascript, Typescript, Next.js, React, React Native, Node.js, GraphQL, PostgreSQL, MySQL, CSS, HTML, AWS, Redis

Professional Experience:

The Green Book Project | Founder / Software Engineer | April 2021 - March 2023

- Bootstrapped a mobile app for iOS and Android that I built single-handedly using React Native, GraphQL, Node.js, and PostgreSQL.
- Led a multifunctional product team responsible for the entire product development lifecycle from user research and A/B testing to finished feature sets.
- Amassed 13,000+ downloads on the App Store and Google Play and over 7,000 unique SMS-verified users.
- Developed and led a content marketing team, producing bi-weekly newsletters for a subscriber base of over 3,000 verified readers.

Change.org | Software Engineer III | August 2018 - April 2021

- Using Backbone.js and Ruby on Rails, I built an SMS pipeline to connect new petition starters with Change.org's professional campaigners in real-time leading to a 20% increase in petition victories week over week.
- Using a combination of React and Backbone.js, I overhauled Change.org's "Start-A-Petition" flow leading to a 70% increase in successful petition creation rates in just 3 months.
- Using Elixir and Node.js, I designed a pipeline for Change.org's custom email and messaging infrastructure allowing our product managers to experiment with customized drip campaigns and SMS automations.

Education:

Texas A&M University | International Studies | 3.8 GPA | 2016

Semester at Sea | Global Studies | 2016
